

# TUN SOPHEAK

Fourth-Year Computer Science Student • Aspiring Full Stack Developer

✉ sopheaktun.tsp@gmail.com | 📞 +855 95 879 812 | 📍 Phnom Penh, Cambodia  
🌐 linkedin.com/in/tun-sopheak | 🐙 github.com/TunSopheak

## PROFILE

Fourth-year Computer Science student at the Royal University of Phnom Penh with hands-on experience in front-end and backend web development through academic projects. Familiar with HTML, CSS, Tailwind CSS, JavaScript, FastAPI, SQL databases, Git, GitHub, and Laravel fundamentals. Seeking an entry-level Full Stack or Web Developer role where I can apply my skills, contribute to real-world projects, and continue growing as part of a professional development team.

## EDUCATION

### Royal University of Phnom Penh

2023 – Present

Bachelor's Degree in Computer Science

Expected Graduation: 2027

GPA: 3.70/4.00

Relevant areas: Web Development, Database Systems, Software Engineering, Object-Oriented Programming

## TECHNICAL SKILLS

|               |                                                              |
|---------------|--------------------------------------------------------------|

| Databases     | MySQL, PostgreSQL, SQL Server, SQLite, Database Design       |
| Tools         | Git, GitHub, VS Code, NetBeans                               |

## SELECTED PROJECTS

### Smart Classroom with AI Monitoring

Backend Contributor • Academic Group Project (MVP) • June 2026

- Collaborated in a 10-member team to develop a classroom monitoring MVP with student management, attendance tracking, reports, and a web dashboard.
- Contributed to backend development using Python, FastAPI, SQLAlchemy, and SQLite.
- Helped integrate a face-recognition prototype and QR attendance backup and prepared a local network demonstration using Raspberry Pi 5.
- Repository: [github.com/TunSopheak/Smart-Classroom-AI-IoT](https://github.com/TunSopheak/Smart-Classroom-AI-IoT)

### PhsarKhmer E-Commerce Web App

Team Member • Web Design Course Project • 2025

- Contributed to responsive front-end pages covering product listings, search, shopping cart, and authentication interfaces.
- Implemented interfaces using HTML5, Tailwind CSS, and JavaScript and deployed the demonstration website on Vercel.
- Repository: [github.com/TunSopheak/PhsarKhmer-WebApp](https://github.com/TunSopheak/PhsarKhmer-WebApp) • Live Demo: [phsar-khmer-web.vercel.app](https://phsar-khmer-web.vercel.app)

## ADDITIONAL EXPERIENCE

### Peer Tutor – C Programming

September 2024

Student Learning Support, Royal University of Phnom Penh

Helped beginner students understand C syntax, programming logic, problem-solving, and debugging through individual and small-group sessions.

## TRAINING AND RECOGNITION

- CCNA: Introduction to Networks – Cisco Networking Academy August 2025
- Web Design Junior – ISTAD (HTML, CSS, Tailwind CSS, JavaScript) 2025
- Child's Dream Cambodia Full Scholarship 2023 – Present

## LANGUAGES

Khmer (Native) • English (Good)
